

Bone Regeneration in Implant Dentistry: Current Status and Future perspectives

Professor Saso Ivanovski

Saso Ivanovski graduated with BDS c (Honours) is the C chair and Professor of Periodontology at the Griffith University School of Dentistry and Oral Health where he leads the specialist training program in periodontology. He currently combines this position with his part time specialist practice in periodontics and surgical implant dentistry. Saso is a fellow of the International Team of Implantology (ITI) and past federal president of the Australasian Osseointegration Society (AOS) and the Australian Society of Periodontology (AS P). S aso has published over 100 articles in the peer-reviewed international literature, has lectured nationally and internationally and has been the recipient of numerous research grants and awards. He leads an internationally recognized research group with an interest in oro-dental regeneration, tissue engineering and implantology.

A Message to the members

There will also be an AGM after the lecture thus in order to finish on time, we will be starting the lecture at 6.45pm sharp and should hopefully be finished by 9pm.

We have had to update our program due to some changes. And we have also secured some more speakers for the coming year.

Please note the updated program below

12-Sep-17

Dr Carlo Maiorana (Italy) "All about BioOss risks benefits when to use when to place implants" (Sponsored by Geistlich Australia)

17-Oct-17 Not to be missed!

Professor Tord Berglundh (Sweden), afternoon/evening course perimplantitis new research from Gothenburg University

(Sponsored by Dentsply Sirona Implants)

6-Nov-2017

Joint meeting with Australian Periodontal Society

Dr Marco Esposito-To be advised

(Sponsored by Southern Implants)

14-Feb-2018

Professor Pauline Ford "UQ School of Dentistry: A New Era"

Scientific Presentations by Griffith University Periodontal Post-Grad Students **11-Apr-2018**

Dr Jamil Alayna "Maxillary Sinus Research"

2nd-5th May 2018

AOS Congress in Melbourne

11-Jul-2018 AGM

Dr Scott Armstrong "Maxillary sinus anatomy and complication that can occur and how to handle them"

In order to attract more members to the society, we have decided to make another "Bring a guest for free" evening for the upcoming meeting in September. Please encourage colleagues that are interested in Implant dentistry to come, experience the meeting, and hopefully become part of the society.
